SAFETY

The all new Honda HR-V features top of the line safety features making sure you have a safe and comfortable journey wherever you go. Powered by Honda Sensing, this car is packed with all the modern day driver technology inside.

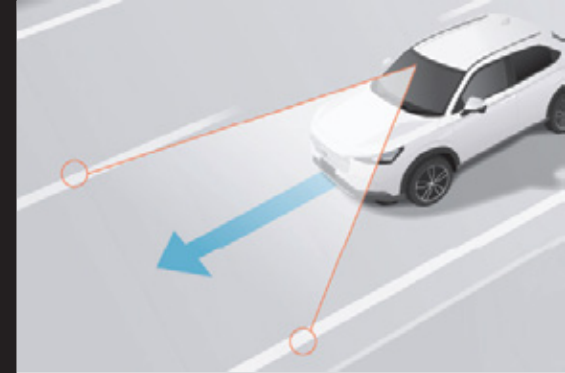

Honda Sensing – Adaptive Cruise Control (ACC)

Helps maintain a constant speed following the car ahead without having to accelerate or keep your foot on the gas pedal.

Honda Sensing – Collision Mitigation Braking System (CMBS)

Designed to prevent a collision by drastically reducing speed of the car before impact while warning the driver of a potential collision ahead.

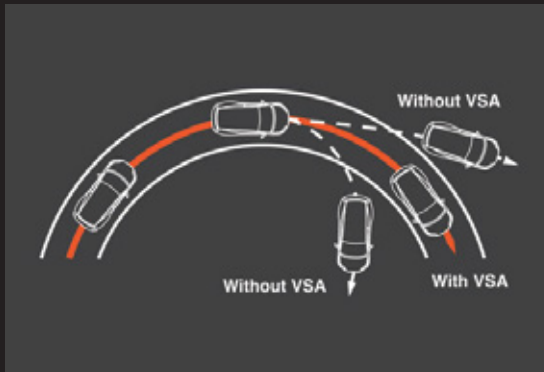

Honda Sensing – Lane Keep Assist System (LKAS)

Aids in keeping the vehicle on a detected straight lane and preventing it from accidentally drifting into another lane.

6 Airbags System

As part of the world's first system developed by Honda, six quick-deploying airbags provide advanced passenger protection and injury reduction.

Vehicle Stability Assist™ (VSA™)

The Vehicle Stability Assist™ (VSA™) system regulates the engine's output and selectively applies the brakes, helping to maintain traction on slippery roads.

ISOFIX

The ISOFIX child seat can be easily connected to all seat anchor points and be attached securely on all sides for optimal stability.

PERFORMANCE

The brilliantly engineered inline 4 heart of the all new HR-V puts out 118 horse power at 6600 RPMs with a torque figure of 142 Nm. Responsive performance delivering a fun driving experience throughout.
