

The adventure-ready CR-V sets a new standard for interior quality, comfort and sophistication. Contemporary design meets premium finishes, with every detail carefully considered, you'll always want to take the long way home.

The cockpit-inspired driver's seat puts all the controls within reach, so you can keep your eyes squarely on the road ahead. Luxurious leather interior makes for a comfortable ride, every time.

But comfort doesn't stop at the front seats. Rear seat passengers enjoy generous legroom, with clever space and functionality, like cup holders hidden in the center armrest and USB ports to keep devices charged.

ADVENTURE READY

Be it near or far, big or small, the Honda CR-V has the right mix of power and efficiency to fuel all of your adventures.

While the advanced turbocharged engine and enhanced handling capabilities will ignite yours sense of adventure straight away, the all-wheel drive (AWD) system makes it a versatile SUV capable of getting you into, or out of, any unforeseen situations that may come your way.

On par with all that power and handling is a focus on efficiency. The Honda CR-V with Earth Dreams technology is engineered to maximize fuel economy and reduce emissions, maximizing your driving enjoyment while minimizing your impact on the world around you.

CONNECTED AND IN CONTROL

The all-new Honda CR-V keeps you connected and in control from the moment you push start. The Apple CarPlay sits at the center of it all-connecting you to your music, apps & more with a simple tap. The reversing camera makes backing out of tight spots a breeze. And if things happen to get too breezy, the advanced climate control system will keep everyone on board comfortable.

Apple and Android smartphone users can connect via Bluetooth or plug into the USB port to call, text, get turn-by-turn directions plus, access many of your favorite apps. And to keep your attention focused squarely on the journey ahead, all these refined features can be accessed via contoured steering wheel-mounted controls or with simple voice commands. It's an intuitive suite of cutting-edge technology designed to help you make the most of all your everyday adventures.

GETTING YOU HOME SAFELY

To assist with safe stopping, the new CR-V features 4-wheel Anti-lock Braking System (ABS), designed to help you maintain control under hard braking conditions as well as Electronic Brake-force Distribution (EBD) which helps to optimize braking power based on weight distribution inside the vehicle.

To enhance handling and cornering stability, the new CR-V features Vehicle Stability Assist with Traction Control, designed to sense and help correct oversteer and understeer scenarios, while Hill Start Assist has been added to temporarily maintain brake pressure to help prevent your CR-V from starting to roll backwards when stopped on an incline.

The highly innovative, next generation Advanced Compatibility Engineering TM (ACE TM) body structure is engineered to help disperse frontal impact energy to enhance occupant protection, while more effectively controlling it in serve collisions to help prevent intrusion into the passenger cabin.

Featuring 6 standard airbags, LED front fog-lights, LED high mounted rear brake lights and 3-point seat belts for all 5 occupants, the CR-V will always bring you home safe.
